ACKNOWLEDGEMENT

I feel deeply indebted to my friend **Kanayo Tolani** for his wholehearted support and co-operation in bringing out this book in the present form. He not only heard me patiently, read my manuscript carefully but also peeped into the hidden message between the lines, almost reading my heart. He went even to the extent of replacing some phrases and expressions to suit the text and context without affecting the subtility and originality of my concept.

My sincere and heartfelt thanks to him for offering valuable suggestions and critical comments which greatly helped me improvise the contents of the book.

Finally I express my gratitude to him for the time and energy he devoted to complete this book. Without his active participation, inspiration and encouragement, this book would have remained a dream and would not have been in your hands.

NAND ANAND

INTRODUCTION

The entire book "Excellent Replies" is in the form of questions and answers. Every question, through common, is pregnant with hidden hype and every answer, a surprise pack. The unique part of the book is the unique effort and unique method projected by the author which has probably, never been attempted in the past. It is a novel form and style of unwinding the author's passions and perceptions, convictions and conceptions or may be indirect exposure of his passions and obsessions stemming from experiences of his own life and interactions with others. Every question contemplates exploration of new horizon of knowledge. Some answers may compel you to read them again and again to strike at author's view point and fathom the depth of his thematically excellent replies.

Some answers are funny, some are witty, some intelligent and some informative, some

are based on common sense, logic, good reason and rationale. Reference to historical characters and religious big wigs with mutation, reflect the author's deep study of history, epics and other branches of beliefs. It is, however, difficult to carve a niche for this book in a specific literary branch since it covers a very wide spectrum of think tank spreading colours of general knowledge including history, politics, humour, satire, human relations, religion, rebirth, spirituality, philosophy of modern and ancient thinkers etc. etc. Majority of answers are tangibly plausible except certain topics which appear to be exclusively personal. References to woman, beauty, love, sex, marriage and female anatomy provide food for thought.

In short, the whole exercise of questions and answers makes interesting and absorbing reading. Unlike strip - tease, the "EXCELLENT REPLIES" is a Brain-Tease for all ages. It is both informative, enlightening and entertaining at places.

The effort is unique and laudable.
